PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js with hands-on experience building responsive and scalable web applications. Skilled in integrating REST APIs, managing application state with React Hooks, and implementing full CRUD functionality using Supabase. Strong focus on clean UI design, performance optimization, and delivering seamless user experiences.

FEATURED PROJECTS

1. Trace Aid fundraising App

Built with React & REST APIs:

- Developed a responsive web application using React
- Integrated external REST APIs to fetch and display real-time data
- Managed components state using React Hooks
- Structures reusable components for scalability
- Implemented error handling and loading states for better UX

2. Breakfast Ordering App

Built with React & REST APIs:

- Designed and developed a modern food ordering interface
- Integrated REST APIs for dynamic product data
- Implemented cart functionality and dynamic updates
- Optimized mobile responsiveness
- Structured clean and maintainable component architecture

3. E-Best web application

Built with React & supabase:

- Developed a full-stack web application using React and supabase
 - Implemented authentication and user management
 - Built CRUD functionality for admin dashboard
 - Connected frontend to supabase database
-

TECHNICAL SKILLS

1. Programming

- React.js
- JavaScript
- Supabase
- HTML
- CSS

2. Tools

- Git
 - GitHub
 - VS Code
 - Figma
-

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Adaptability
- Creativity
- Attention to Details
